"America is permanently on the brink of revolution. It will be a simple matter for me to produce unrest and revolts in the United States."

—Adolf Hitler, in a statement to his conductor and aide, Hermann Rauschning

"We hope that the Communist forces of America and Europe will take over the White House."

"We hope some time the Communists will take Moscow to New York."

---

Map showing the distribution of第五列男性 (The Fifth Column Men) across the United States, with a focus on the Western states.
“We hope that the Communist Party will, step by step, conquer the proletarian forces of America and in the not distant future raise the Red flag over the White House.”

—Gregory Zinoviev, President of the Executive Committee of the Communist Internationale

“We hope some time the Communist Internationale will be moved from Moscow to New York.”

“The Government does not hesitate to conscript the lives of the people. Without giving that our approval, but rather condemning it, we demand that the government conscript the war industries, the property of the plutocrats, and put them under the control of the workers . . .”

“There are already hundreds of working class and trade union rifle clubs in the country. Let them expand, take in and train new members, unite on a national scale! Down with conscription and capitalist militarism—organize the armed and trained defense of the workers, for the workers and by the workers!”

—Program of the Workers (Communist) Party of the United States, April 28th, 1941.
ON A THOUSAND FRONTS

"The influence of the Communist Party in America will increase tremendously as a result of the break between Hitler and Stalin. All of those gullibles and fellow travelers in America who aided the Communist cause prior to the alliance may be expected to resume their activities in behalf of Moscow.

"America must prepare at the earliest possible moment for an emergency unprecedented in her history. All strikes and sit-downs must cease. Thousands of fifth columnists now working in defense industries must be fired without delay. At least 1,000 Government employees sympathetic with totalitarian ideology must be discharged."

—Hon. Martin Dies, Chairman, Special Committee on Un-American Activities, House of Representatives

NAZI NOTE—When the German-American Bund was originally set up the Foreign Institute at Stuttgart, Germany, for organizational purposes, divided the United States into three departments as indicated on this map. Subsequently, with the Hitler-Stalin treaty marriage, a few changes were made to facilitate Nazi-Communist cooperation. Half of Pennsylvania, for example, was placed in the "Department of the Middle West" to conform to Communist division of the state. Wyoming was moved into the "Department of the West" to become a part of Communist District No. 60. Now that Nazi-Communist cooperation is at an end, indications are that original Nazi boundaries will prevail.
The Communist organization is sub-divided into cells or fractions, shop nuclei, street nuclei, international (foreign language) branches, sub-sections, sections, city (local) units, sub-districts and districts.

Reproduced below is an original Communist map of New York City showing section and sub-section boundaries.

NO PRACTICAL MAP could be made that would individually indicate all of the centrally concentrated and extensively far-flung units of the Communist and Nazi network. This map, therefore, is able to list but a small fraction of the grand total. While it indicates the more important and more active centers of subversion a more realistic picture may be envisioned by the realization that the poisonous tentacles of the Red, Brown and Black Fifth Column reach into almost every city, town and hamlet in the United States. As this is being written it was discovered that a Communist cell was hard at work among the borax workers in the heart of the desert—in Death Valley.

NEW YORK CITY, although but a pinpoint on the map, has within its boundaries 72 Communist Schools and 1,187 Communist Party units, with 44 headquarters listed in the telephone book. In the metropolitan New York district, covering parts of New Jersey, Long Island and Connecticut, there are 90 Communist Schools, 57 Communist camps, 31 Nazi units, 26 Nazi camps, and 43 Fascist centers.

ANTI-DEFENSE CONCENTRATIONS are plainly evident. A major portion of all Communist activities is confined to four states—New York, New Jersey, Pennsylvania and California—wherefully 90 per cent of the Nazi Bund’s membership and activities are also centered. The significance of this situation is evidenced in the fact that of the Seven Billion Dollars appropriated by Congress for National Defense, $5,135,024,027 in contracts went to these same four states, while all other states combined received contracts totaling $1,864,975,973.

IN DEFENSE INDUSTRIES

Regardless of what the fortunes of war bring to Soviet Russia and in spite of any moral or material support the United States may give to the Kremlin, Moscow’s Fifth Column compatriots will continue to entrench themselves in American industry. Showing the production of war supplies for Britain or speeding military aid to the workers’ fatherland are but temporary expedients. Of prime importance always is the major goal—"to convert the imperialist war into civil war."

"Every factory must become a fortress of Communism," decreed the Executive Committee of the Communist Internationals. And it declared: "Strikes are mere dress rehearsals for the revolution.

"When Communists urge strikes and crippling of industry in time of war we are accused of trying to bring about the defeat of our own government. To that charge we reply: Yes. To a government ensnared in warfare we urge firm and steady union action.

"Finally, the Communist International has declared that the time is ripe for a World Communist Revolution."

COMMUNIST SUB-DIVISIONS

The Communist organization is sub-divided into cells or fractions, shop nuclei, street nuclei, international (foreign language) branches, sub-sections, sections, city (local) units, sub-districts and districts.

Reproduced below is an original Communist map of New York City showing section and sub-section boundaries.

IN THE ARMY, NAVY and NATIONAL GUARD

A member of the Soviet secret police, the GPU, in a report prepared in 1925 listed the "organized and controlled cells" in Naval installations on both Atlantic and Pacific coasts. Bremerton, Wash., with 400 members and Brooklyn, N. Y., with a 250 member unit were the largest cells named. At the Panama Canal the Cristobal base had a cell of 20, while Coco Solo's Communist contingent numbered 60. Among others, a cell of 70 Sovietists was listed as being active at Mare Island.

On July 1, 1941 Rear Admiral John W. Greenleaf announced that 28 workers at the Mare Island Navy Yard were being discharged for "subversive activity and associations," while on the same day 10 employees of the Brooklyn Navy Yard were fired "in the interest of national defense."

The Army's first open experience with Communism came in 1925 when Walter Trumbull and Paul Crouch, enlisted men, were arrested for having organized Red cells "in practically every regiment" in Schofield Barracks, Hawaii. They were sentenced to imprisonment for 20 and 29 years, but were released in short order for "good behavior." On his release Trumbull made a nation-wide speaking tour under Communist sponsorship, being hailed by Robert Minor, present head of the Communist Party, as "Commandant Trumbull, Red Chief of the American Soviet Republic Army and Navy." Paul Crouch, who had been propaganda director in Hawaii, was honored by Moscow with the title "Professor of Military Sciences and Tactics for the Communist Party of the World, U. S. Branch."

The Nazis and Fascists have also penetrated the Army and Navy: Blackshirt leader Paul Castorina, head of the Amerkan Union of Fascists, was a member of the New York National Guard and a Communist. (Continued on back of map, bottom of last column.)
NO PRACTICAL MAP could be made that would individually indicate all of the centrally concentrated and extensively far-flung units of the Communist, Fascist and Nazi network. This map, therefore, is able to list but a small fraction of the grand total. While it indicates the more important and more active centers of subversion a more realistic picture may be envisioned by the realizations that the Nazi Bund has established itself in the major centers of commerce, finances, industry, transportation and real estate in New York City and has branched out on the West Coast from Seattle to San Diego. As this is being written it was reported the Bund was hard at work among the borax workers in the heart of the desert—in Death Valley.

NEW YORK CITY, although but a pin-point on the map, has within its bounds 72 Communist schools, 11 Communist Party units, with headquarters listed in the telephone book. In the metropolitan New York district, embracing parts of New Jersey, Long Island and Connecticut, there are 90 Communist Schools, 27 Communist camps, 31 Nazi units, 26 Nazi camps, and 43 Fascist centers.

ANTI-DEFENSE CONCENTRATIONS are plainly evident. A major portion of all Communist activities is confined to four states—New York, New Jersey, Pennsylvania and California—where fully 90 per cent of the Nazi Bund's membership and activities are also centered. The significance of this situation is evidenced in the fact that of the $14,332,024,027 in contracts went in these four states, while all other states combined received contracts totaling $1,866,972,973.

IN DEFENSE INDUSTRIES

Regardless of what the fortunes of war bring to Soviet Russia and in spite of any moral or material support the United States may give to the Kremlin, Moscow's Fifth Column contrivances will continue to entrench themselves in American industry. Slowing the production of war supplies for Britain or spreading military aid to the workers' fatherland are but temporary expedients. Of prime importance always is the major goal—to convert the imperialist war into civil war."

"Every factory must become a fortress of Communism," declared the Executive Committee of the Communist Internationale. And it declared: "Stikes are mere dress rehearsals for the revolution."

"When Communists urge strikes and crippling of industry in time of war we are accused of trying to bring about the defeat of our own government. To that charge we plead guilty. That is precisely our aim. A government engaged in warfare is weaker than at other times. At such a moment an organized drive may result in such difficulties that the imperialist forces may be defeated," says "The Communist," official monthly organ of the American Communist Party.

From Moscow came these orders: "Chief among the industries in which we must concentrate are the chemical industries, navy yards, airplane plants, shipbuilding plants, munitions factories, etc. The Party must pay greater attention to the building of war materials. . . . Work for the general strike as a transition to the armed uprising."

"When war comes," directs a manual for American Communists, "work in munition plants, go on strike! Shut down your plants! Railroad men, refuse to handle war materials or to transport troops! Marine workers, do not load either men or ammunition! Truck drivers, refuse to assist in war work! . . . If the workers rise in this way against war, the capitalists with their armed forces will try to break the deadlock. The workers will have to offer resistance. We Communists do not close our eyes to the fact that this means civil war. Victory in the civil war spells the doom of the capitalist state."

"Take the workers in the Soviet Union," another Red document declares, "the Americans will seize the industries and government and establish a Workers government."

The Nazi Bund also has a very keen interest in American industry.

"Band members were employed in defense factories . . . We planned on paralyzing the Pacific Coast from Seattle to San Diego."

"By sabotage?" "Yes—which included blowing up herds, Hercules Powder Company, and anything else they could make munitions, and even blow up all of the docks and warehouses along the waterfront." So testified a former Bund official before the Dies Committee.

"If there is any significance that much of the Bund's work is in the New York, New England and Pennsylvania area where 90 per cent of this country's munitions industry is located?" Congressman Sarnen asked Bund’s founder Fritz Kahn at a later hearing.

"Of course not, said Kahn. "There is no significance that much of the Bund's work is in the New York, New England and Pennsylvania area where 90 per cent of this country's munitions industry is located?" Sarnen persisted. "I know nothing about industries," Kahn retorted, despite the fact that in the previous month Dr. Ignatz Goebel, was the head of a spy ring which among other things, stole blue prints of a U. S. Navy scout bomber eight months before the plane was delivered to the Navy itself.

In discussing this spy ring which was centered in the Nazi Bund's leadership Senator Millard Fitch, Chairman of the Senate Foreign Relations Committee, declared:

"Their value lies in being in a position to promote and engineer sabotage to cripple vital industries in time of war."
THE NAZIS

Hitler's Nazis are Brown Bolsheviks. And he has a host of spies, saboteurs, Gestapo agents, brown-shirted storm troopers and German army reservists and veterans in America who constitute a dangerous Fifth Column as any which contributed to the downfall of Europe's conquered countries.

His consul and their recently over-busy staffs may be on their way back to the Fatherland; his German Library of Information may be closed; his Trans-Ocean News Service may be suspended; his Fellowship Forum may have gone out of business, and a handful of his spies may have been caught, but his cleverly hidden "Einheitsfront" is still intact and the German-American Bund continues to flourish, as it makes careful plans to go underground.

In 1937, Dr. Hans Borchers, Reich Consul General at New York, revealed in confidence that 312,000 veterans of the German Army residing in the United States (and many enrolled in the Kuffhauserbund) were to receive a special "Hitler Iron Cross," some of which he presented in person. The significance of this disclosure is evident in the boast of Gen. Karl Hausjohfer, author of Hitler's plan of world conquest, who wrote:

"A strong determined army under dynamic National Socialist command can be recruited overnight in the United States. The job of taking over North America will be comparatively simple."

The Federal Bureau of Investigation, in 1937, after an 18-month inquiry, placed the German-American Bund membership at 5,800. In 1938, according to its first facherer Fritz Kuhm (now in prison) who told a Dies investigator that he had "a certain special arrangement with Hitler," it comprised local units, a membership of 20,000 and 100,000 "sympathizers." Subsequent investigation by the Dies Committee places its current enrollment at 100,000 members.

Its published aims and purposes "solemnly resolved: above all to honor and defend the Constitution, Flag and Institutions of these United States of America and to cultivate the lofty ideals of the founders of the Nation," but confidential "Pamphlet No. 7" directed that Bund members "cooperate secretly with all persons or groups who criticize the American system."

While its openly stated purpose was "to earnestly strive to further a true respect, understanding and friendship between racially dissimilar groups," the manual of the Bund's Storm Troopers declared:

"We want more than a day, but with all their power the stinking poison of Red Jewish infection in America."

In its duplicity the Bund was merely carrying out the policy of Hitler, who said: "I make use of all means that seem to me to be of service, without the slightest concern for the proprieties or for codes of honor."

For the Fascists, received funds from both the Italian and German Governments, the Rumanian Fascists, the British Imperial Fascist Party, Sir Oswald Mosley, Fritz Kuhm, of the Nazi Bund, and William Dudley Pelley. As an indication of how the Fascist movement is financed, Paul Castorina, leader of the American Union of Fascists, received funds from both the Italian and German Governments, the Rumanian Fascists, the British Imperial Fascist Party, Sir Oswald Mosley, Fritz Kuhm, of the Nazi Bund, and William Dudley Pelley.

Fascists in America, unlike the Communists and Nazis, are not primarily concerned with the task of imposing their philosophy of government on this country, but in securing aid, among their compatriots, in advancing the cause of their respective peoples abroad.

But the organized Italian Fascists, Ukrainian Fascists and White Russian Fascists are a real menace, nevertheless, because of the active support and cooperation they give the Nazi Bund.

These groups are carrying on extensive propaganda among their own nationals. Such activity is detrimental to American institutions. Fortunately, however, every effort of foreign-inspired fascists and bureaucrats to influence American opinion has been so stupid, clumsy and inept that it has added up to a total loss. Comrade Salvatore Caridi, of the Italian World War Veterans, for example, got a Nazi cheer, but made no friends among our people, when he addressed a Bund mass meeting and advocated a "punch in the nose" for those Americans who disagree with Mussolini or Hitler.

Each of the fascist segments has its organized stripped legions. While the Italians have maintained an Air Corps in Chicago, for a number of years, the Fascist movement is by far the more important. It has an enrollment of about 10,000 "Squadristi" in a military unit, with some 100,000 Americans of Italian descent willing to be seen at public manifestations of the 200 and odd organizations it comprises. There are more than 100 periodicals, weekly papers, magazines and bulletins disseminating Fascist propaganda, and under the guise of education, schools for children and a youth movement have been organized under Fascist patronage.

These activities have been carried on largely under the direction of Eduardo Bassini, Under Secretary to Mussolini, who spent many years in this country as an I.W.W. agitator.

Italian consular officials have played a leading role in Italian-American circles in attempting to build goodwill for Italy and Fascism. Now, they have been sent home, but the agents of the OYRA, the Italian Gestapo, or Secret Service, are still here and, here too, are the Italian War Veterans, who were organized into "military clubs" just a year ago. Geoffredo Panteleon, for 10 years head of the official Italian Information Office in this country, discloses that there are 700 ex-officers and 30,000 former non-commissioned officers of the Italian service and men who will exterminate in New York City alone.

As an indication of how the Fascist movement is financed, Paul Castorina, leader of the American Union of Fascists, received funds from both the Italian and German Governments, the Rumanian Fascists, the British Imperial Fascist Party, Sir Oswald Mosley, Fritz Kuhm, of the Nazi Bund, and William Dudley Pelley. As an indication of how the Fascist movement is financed, Paul Castorina, leader of the American Union of Fascists, received funds from both the Italian and German Governments, the Rumanian Fascists, the British Imperial Fascist Party, Sir Oswald Mosley, Fritz Kuhm, of the Nazi Bund, and William Dudley Pelley.
The heart and brain of the Red Fifth Column in America is the Communist Party, which the Dies Committee has found to be “a foreign conspiracy masked as a political party.”

Its 100,000 members are “the General Staff of the proletariat,” according to a Soviet secret agent who advises American Communist leaders. In truth they are the Generals, the Communist hierarchies, the Central Committee, the Party’s National Executive Committee, the agitators of a gigantic movement whose intrigues stagger the imagination and whose power and influence has made itself felt in almost every national life.

The Communist Party is merely the nucleus—around it has been built a Red agitation and propaganda machine, which comprises some 500 affiliated, controlled or dominated organizations, newspapers and magazines. The Stalinists advise that “it is unusually active in our schools, both openly and secretly.”

The Party owns and conducts more than 300 schools from coast to coast and some 1500 “Workers Centers.” It also maintains a network of camps and pleasure resorts extending into the states of every part of the country. It controls several picture-producing concerns, and runs a film importing agency. It has its own insurance company and operates cooperative stores and restaurants, to mention just a few of its multiplicity of interests.

In connection with these activities Congressman Dies estimates that the Communists are spending $25,000,000 each year to carry on their work. Dr. D. H. Dubrowsky, former head of the Soviet Red “Workers Committee,” testified under oath that the American Communist Party is spending $25,000,000 each year. Dr. Foster, its leader, estimates that the Communists are spending $25,000,000 each year. For its work in America, the Party has its headquarters in Moscow.

In summarizing its findings on the Communist Party, the Dies Committee reports in part:

“Finally, it is diametrically opposed to the principles of Americanism, as set forth in the Constitution and the Declaration of Independence.”

“The Communist is unscrupulous in his choice of weapons. He allows no consideration of legality, religion, patriotism, honor, duty, etc., to stand in his way of his activities.” And the Communist oath declares: “I pledge myself to remain at all times a vigilant and firm defender of the Leninist line and the triumph of Soviet Power in the United States.”

“When we sing the Star-Spangled Banner and the Internationale together,” says the Communist daily newspaper, “we express the fusion of a Communist program for socialism and Americanism.”

The success of our country’s defense effort requires, more than any endetor to defend and preserve it is doomed, and faces speedy collapse,” Therefore, “it is up to YOU, whoever you are, individually, to do your part in unmasking Hitler’s agents and the Fifth Column.”

We must," said the Red organ, "THE COMMUNIST, in 1945, when it secured much publicity over an alleged purging. Its aims and purposes were best expressed by an industrial unionist, when he said:

"The workman who is contented today is truly a pitiable creature; we can to increase your discontent. We would have our readiness with which the CIO followed the suggestion of the Red organization to give the workers a chance to rise in revolt against wage slavery, and to recruit as many Party members as possible."

"Communist 'front organizations are used to enlist the support of unsuspecting followers. We would have our contact thus gained is to build up mass organizations sympathizing with our movement."

"We must," said the Red organ, "THE COMMUNIST, when it secured much publicity over an alleged purging of its directorate of Communists, but only "shouting" Communists were eliminated," while a Congressional investigation found it to be "closely affiliated with the Communist movement in the United States, and fully 90% of its efforts are on behalf of Communists." A Massachusetts Legislative Committee, after an investigation, reported, "The propaganda of this organization is dictated and dominated by Communist sympathizers." In 1940 it secured much publicity over an alleged purging of its directorate of Communists, but only "shouting" Communists were eliminated," while a Congressional investigation found it to be "closely affiliated with the Communist movement in the United States, and fully 90% of its efforts are on behalf of Communists." CHARGES MADE FOUR YEARS AGO

American Metal Workers Association

Organized by members of Communist and socialist student groups, characterized as "traitorous and un-American," the American Metal Workers Association comprised over 5,000,000 members, and was affiliated with the American Federation of Labor. The A.W.A. was organized in Chicago, and its aims were stated by the organization's executive board as follows:

"The American Metal Workers Association was organized in Chicago to carry on the class warfare and propaganda of the Communist Party of America.

We pledge to work for the stopping of all munitions production in the United States, and to organize American labor on an industrial basis to serve the purpose of the international Communist Party in this country and abroad, to the end that all workers of the world may be free and equal and to the establishment of a Soviet America.

"We pledge to organize all of the metal trades, and to work for the stoppage of all munitions production in the United States, and to organize American labor on an industrial basis to serve the purpose of the international Communist Party in this country and abroad, to the end that all workers of the world may be free and equal and to the establishment of a Soviet America.

The American Metal Workers Association was organized in Chicago to carry on the class warfare and propaganda of the Communist Party of America.

United Auto Workers, 18,000 members, staged riots and demonstrations against war production, and their leaders have been identified as agents of the Communist Party.

American Metal Workers Association is a copy of a report sent to Moscow by one of the Communist Party agents, and it shows the extent to which the American Metal Workers Association was controlled by the Moscow-directed Communist Party.

"The American Metal Workers Association was organized in Chicago to carry on the class warfare and propaganda of the Communist Party of America.

We pledge to work for the stopping of all munitions production in the United States, and to organize American labor on an industrial basis to serve the purpose of the international Communist Party in this country and abroad, to the end that all workers of the world may be free and equal and to the establishment of a Soviet America.

We pledge to work for the stopping of all munitions production in the United States, and to organize American labor on an industrial basis to serve the purpose of the international Communist Party in this country and abroad, to the end that all workers of the world may be free and equal and to the establishment of a Soviet America.

The American Metal Workers Association was organized in Chicago to carry on the class warfare and propaganda of the Communist Party of America.

"We must," said the Red leader, "the Communist, in 1921, "set up and run the 48 Hours," a strike while he commits the overt acts they have no chance to commit."

On June 25, 1941, Hon. Paul J. Kern, President of New York State, organized the Labor Front Committee investigating his official acts, which was undertaken as a public interest in order to preserve evidence of the truth. He admitted having been in London and Paris and having acted in concert with Spade, National Women's Bureau, and New York's Committee of Fifteen, all Communist leaders in New York. He also quoted Otto Kuusinen, more recently in an interview with the London Daily Worker, as saying, "I am a Communist and I shall continue to be a Communist."

It is a revelation that in 1921 the Communist could select by name the very organization that in 1935 would be his financial backer. A U.S. Naval Intelligence report, in 1935, said: "A major problem is not only the Communist with his philosophy of hatred, destruction, and revolt; but individuals, supposedly intelligent, occupying positions above the average in life, whose names and works, carry with them the prestige, and who, although themselves not subscribing to the Communist program, it is nevertheless interesting to review the sworn testimony of George Berthelon, former secretary of the Communist Party of California.

"The (Communist) has a rule that whenever asked if we were members, we were automatically expelled. Of course, after we had replied 'no,' we were immediately re-instated. All this was automatic."

In December, 1931, the Central Council of the Red International of Labor Unions (Comintern) in Moscow, declared:  

"We must apply different forms of struggle while remaining in the factories, a slowing down in the tempo of work and sabotage (sabotage) for low wages ... through police barriers to establish discipline, and their funds and property, over the employment, dismissal and demoralization of workers, to secure changes in the internal regulations of particular factories."

In May, Congressmen of the Dies Committee in a speech, said: "All over the United States, wherever there is opportunity to sabotage our program of national labor unity, the Communist Party is working under the auspices of the CIO." John Thomas, National Legislative Representative of the American Legion, said: "The Comintern through its "International Labor Defense" has done nothing about cleaning up Communism in CIO unions, and nothing about treason, and nothing less than treason ... I put the finger on Philip Murray and later became Chairman of the faculty at a Communist College. Writing for the Epworth Herald, she said:"

"We must apply different forms of struggle while remaining in the factories, a slowing down in the tempo of work and sabotage (sabotage) for low wages ... through police barriers to establish discipline, and their funds and property, over the employment, dismissal and demoralization of workers, to secure changes in the internal regulations of particular factories."
In summarizing its findings on the Communist Party, the Dies Committee reported:

"It is under direct control of the Third International which has its headquarters in Moscow. The International is the central authority of the Communist Parties which are affiliated to it, and it is in turn controlled by the Fourth International which is also the center of all the Communist Parties."

"The Dies Committee further states that the Communist Party is a political party, and not a labor union. It seeks to overthrow the government and establish a Workers' and Peasants' Government."

"The Dies Committee also finds that the Communist Party is engaged in an active propaganda campaign, both domestically and internationally. It seeks to organize labor unions, workers' councils, and other organizations to further its cause."

"The Dies Committee concludes that the Communist Party is a dangerous enemy of the United States, and that its activities constitute a clear and present danger to the national security."

"It is the belief of the Dies Committee that the Communist Party is a form of socialism, and that it is a necessary evil that must be suppressed in order to protect the American way of life."

"The Dies Committee recommends that the government take all necessary steps to prevent the spread of communism in the United States, and to protect the American way of life."
